

Notes from the Woods

Listen for it on Spa Channel XM 72 or SIRIUS 73!

A gentle, beautiful CD of mixed instrumental styles for relaxing and quiet inspiration.

Sharon was inspired to convey the quiet calm that nature provides us through it's many moods and layers of depth that we feel in its midst. After many days of walks and spending time at various parks and gardens over the years in travels throughout North America, Europe, Asia, South America and especially The Morton Arboretum in Lisle, IL. , this album is an uplifting musical tribute to these very special places that we need to continue to take care of and cherish.
