

About Us

Dusty Dreams provides soothing and inspiring music throughout the day - whether you're driving in a car, studying, working, reading the paper or just relaxing. The record label name "Dusty Dreams" refers to dusting off those dreams we frequently put off in life and deciding to give them another shot. Sharon's own path and journey to finally composing and producing her own music after 20 years in the corporate world was one such dream that is now a reality, and she hopes her music will provide similar inspiration for others to pursue their own "dusty dreams" on their Life Journey.
